RE: Option to Purchase Student Accident Insurance

As you and your family begin the new school year, I encourage you to make sure your children are covered by student accident insurance. As a parent or guardian, any medical bills associated with an accidental injury occurring at school are your responsibility.

Your current medical insurance may be sufficient to cover such an accident. However, if you do not have medical insurance, you may want to consider purchasing a student accident plan. Your child's principal has information on affordable student accident and dental insurance from Markel National Student Insurance. Our school division does not receive any financial support from this company. Our concern is only to make it convenient for every family to provide student accident insurance for their children.

A link to the Markel website is posted on the school division website and each school's website. If you do not have access to the web, please contact your child's principal to receive a Markel Student Insurance brochure.
